

## Is it harder to read books? Do you have trouble seeing small items?

Borrow tools that make seeing easier.

### What is MonTECH?

MonTECH is a free equipment library that any Montanan can use. You can borrow items for 30-180 days (depending on what you borrow). Tools include things you may want to try for your home or in the community.

You can schedule a free appointment to learn more about items you can borrow!

### How to use MonTECH

Create an account, request items on our website, or schedule an appointment by phone, video call, or in person in Missoula or Billings. Items will be available for pick up in person or shipped to you for free (with free return shipping).

### What kind of tools can you borrow?

Items for memory support, vision, hearing, communication, mobility, recreation, or daily living are available.

### Questions?

Call or write MonTECH at (406) 243-5511 or [montech@mso.umt.edu](mailto:montech@mso.umt.edu)

Visit us online at [MT-AT.org](http://MT-AT.org)

## MAGNIFIERS

### Hand Held Magnifiers

#### Handheld Lighted Magnifier Mobilux LED

MonTECH has a variety of handheld magnifiers that make things look 1 to 12 times bigger. They come in different shapes and sizes to fit your needs. There are light-up magnifiers and magnifiers for people with shaky hands or tremors.

### Digital Magnifier

#### Looky 6

As vision changes, a handheld magnifier becomes less convenient. Digital magnifiers are the next (best) step! You'll be able to magnify more words or items at one time—with simple buttons and easy controls.

### Wearable magnifiers

#### Patriot ViewPoint

This wearable option allows you to magnify up to 22 times bigger, change colors of text and background, and hear text read aloud.

### Portable Video Magnifier

### CloverBook Pro Portable Video Magnifier

This portable magnifier is lightweight and foldable, easy to use for up-close tasks or distance. Great for taking classes or working on crafting projects!

### Portable Video Magnifier

### AbleBaby

This system is a moveable camera with a light. The camera connects to a computer and allows someone to magnify books, documents, and other items you want to see up close.

## LIGHTING

### Floor Standing Magnifier

Standing floor lamps are perfect for working on up-close projects to get better lighting and magnification. The adjustable arms and easy buttons help to make navigation easy.

### EZ Magnibar

Reader bars are easy to stash in your purse or desk to provide a highlight and magnification to make small text easier to read.

### Verilux Natural Daylight Desk Lamp

This lamp is extra bright for decreasing eye strain and glare when you're working, reading, or crafting.

## FREE TOOLS

### Seeing AI

Do you have a smartphone? Let us introduce you to a fantastic vision app! You'll be able to aim your phone's camera at a space or document, and the app will describe your soundings or read aloud words it sees. Even better, it's free!

Loans are first come–first served. It may take a few days to get your equipment. MonTECH does not loan toileting or shower equipment.
